**APPLICATION FORM  
FOR THE AFFILIATION TO THE  
EUROPEAN MENOPAUSE AND ANDROPAUSE SOCIETY**

Our National Menopause or Andropause Society wishes to apply for Affiliation to the European Menopause and Andropause Society.

The statutes (by-laws) herewith enclosed prove that our objectives are similar to those of the European Menopause and Andropause Society and are the study of all aspects of the health of women and men in the after middle age years and the advancement of the interchange of research plans and experiences between Ordinary members of both societies. We are aware that societies Affiliated to the European Menopause and Andropause Society will abide by and accept the rules of the European Menopause and Andropause Society with regard to affiliation.

1. We guarantee that a minimum of ten of our members will simultaneously be members of the European Menopause and Andropause Society. This has to be confirmed by a current document from the Administration in Switzerland.
2. We will actively encourage our members to join the European Menopause and Andropause Society.
3. We are aware that affiliation to the European Menopause and Andropause Society does not grant our own members any of the privileges enjoyed by the members of the European Menopause and Andropause Society, unless they are also Ordinary members of the European Menopause and Andropause Society.

This means that our members will not have the right to attend the General Assembly of the European Menopause and Andropause Society and consequently have no voting rights; our own members will not be entitled to subscribe to the official Journal of the European Menopause and Andropause Society at the special discount price granted to the members of the European Menopause and Andropause Society; our own members will not be entitled to register for the European Menopause and Andropause Society's congresses at special rates, unless they are also Ordinary members of the EMAS.

As a matter of courtesy, we will try not to arrange our meetings in close proximity to a European Menopause and Andropause Society Congress.

In return, our National Society will:

- a) become officially Affiliated and thus receive the "auspices" of the European Menopause and Andropause Society at no affiliation fee for their national congress
- b) distribute material and documents including application forms of EMAS at their meetings
